WHY THIS GUIDE

One deck, one look, one clear story.

A shared standard for colour, type, layout and evidence, so reviewers spend their time on the content and not on decoding the slide.

One message per slide

The subtitle states the conclusion and the body only proves it. If a slide needs two messages, split it into two slides.

Evidence over adjectives

Show the number, the photo, the screenshot or the document. Replace words such as 'significant' with the figure and its source.

Whitespace is structure

Group items with space, not with extra boxes. Align everything to the grid so the eye reads left to right, top to bottom.

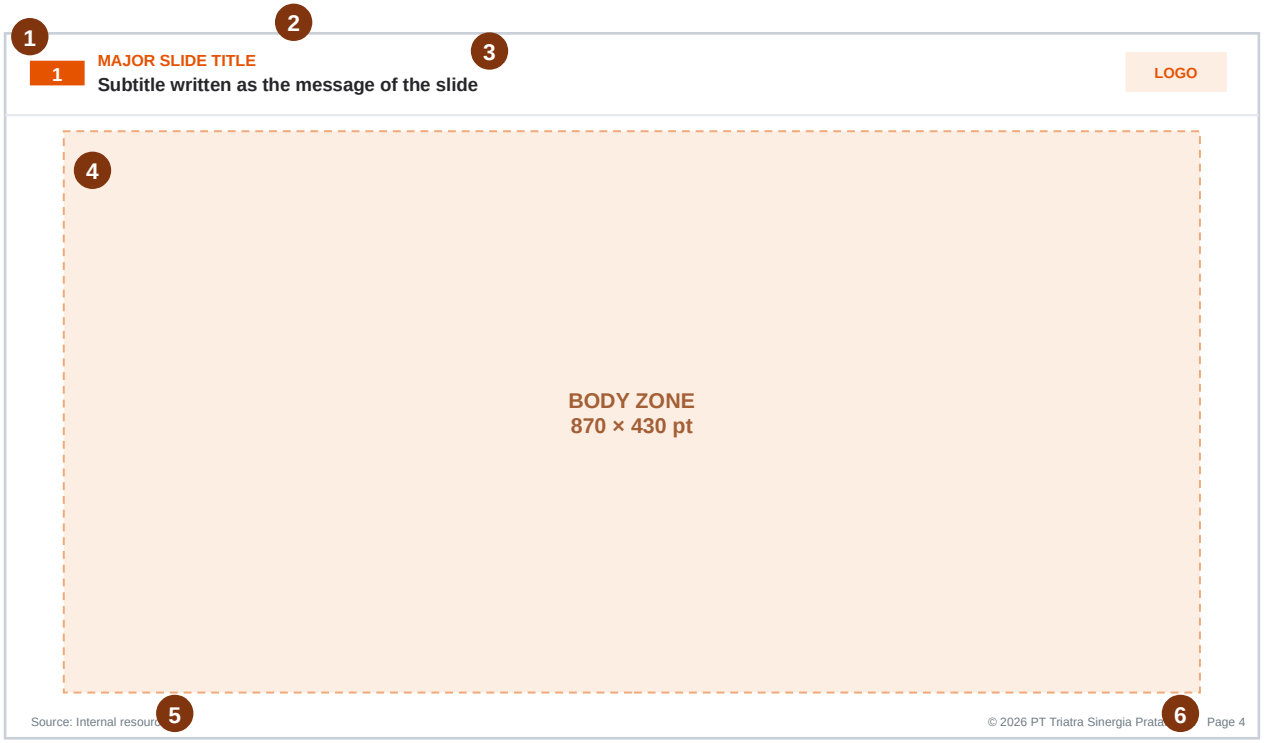

THE STANDARD IN FOUR NUMBERS

1	≤ 6	3	8.5 pt
message per slide, written as the subtitle	**bullets per box, one line each where possible**	**colours on one slide, plus the neutrals**	**smallest text size, including sources**

Source: layout ideas adapted from the Bitwise Asset Management website (editorial headline, stat row, whitespace)

© 2026 PT Triatra Sinergia Pratama, a subsidiary of PT United Tractors Pandu Engineering

Six fixed zones: the header carries the message, the body proves it

1 Number box
Section.slide number. White 16 pt bold on Orange. Already in the layout.

2 Major title
Topic in CAPS. Arial 12 pt bold, Orange E55200. One line only.

3 Subtitle = message
A full sentence with the takeaway. Arial 14 pt bold, Ink 26262A. Max two lines.

4 Body zone
x 45–915 pt, y 75–505 pt. Nothing outside it except the logo and the footer.

5 Source line
Arial 9 pt, Muted 6E7B84, at y 521 pt. Start with 'Source:'.

6 Footer & page
Copyright and page number come from the master. Never retype them.

NOTE

Start every content slide from layout '8_Custom Layout' (Home › Layout). The number box, logo, rule and footer then stay in exactly the same place on every page.

KEY TAKEAWAY

Read only the subtitles from first to last slide: they should tell the whole 6-month story on their own.

HEADER COPY TEST

Weak Supply Chain

Better Supply chain: from demand check to monitoring

Best Five-step supply chain keeps every PO on its agreed RFD date

DESIGN GUIDANCE — GRID & SPACING

A 12-column grid with 12 pt gutters keeps every slide aligned

1 · 12-COLUMN GRID (column 61.5 pt · gutter 12 pt · margins 45 pt)

2 · COMMON SPLITS

Full width · chart, table, timeline

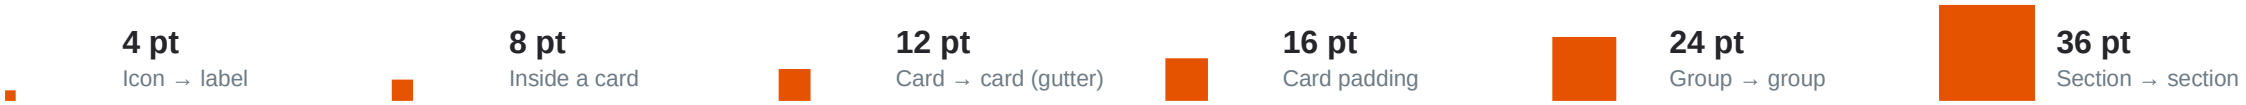

Halves · before / after, two products

One third + two thirds · photo + explanation

Thirds · three pillars, three steps

Quarters · KPI row, four cards

3 · SPACING SCALE (use only these steps)

4 pt
Icon → label

8 pt
Inside a card

12 pt
Card → card (gutter)

16 pt
Card padding

24 pt
Group → group

36 pt
Section → section

Rule of thumb Space between groups must be at least twice the space inside a group. If two boxes look related, bring them closer; if not, push them apart.

Arial only, nine sizes, emphasis with colour and weight

1 · TYPE SCALE — ARIAL

ROLE	SAMPLE	SPEC
Cover title	Design Guidance	28–32 pt · Bold · Orange
Major slide title	MAJOR SLIDE TITLE	12 pt · Bold · CAPS · Orange
Subtitle / message	Five F.lli Ferrari cranes win on price	14 pt · Bold · Ink
Key number	31 units	20–28 pt · Bold · Orange
Section label	1 · COLOUR PALETTE	8.5 pt · Bold · CAPS · Brown
Card title	Card title	10 pt · Bold · Brown
Body	Body text explains, in two to four lines.	10 pt · Regular · Ink · spacing 1.1
Detail / label	Supporting detail, two lines max	8.5 pt · Regular · Muted
Source	Source: Internal resources	9 pt · Regular · Muted · y 521 pt

EMPHASIS

Orange or Bold only. Never underline, italic, shadow or WordArt.

HIERARCHY

Max two sizes inside one box. Bigger means more important, not more text.

ALIGNMENT

Left-align text. Centre only key numbers and single-line labels.

Mostly white and ink, orange only where the eye must land

1 · PROPORTION ON A CONTENT SLIDE

Brown, Sand and Peach are accents for takeaways, phases and chart series. Orange full-bleed is reserved for the cover, dividers, appendix and closing.

2 · CHART SERIES ORDER

Competitors and 'others' always in Grey so the focus series stays readable, even when printed in black and white.

3 · DO AND DON'T

DO

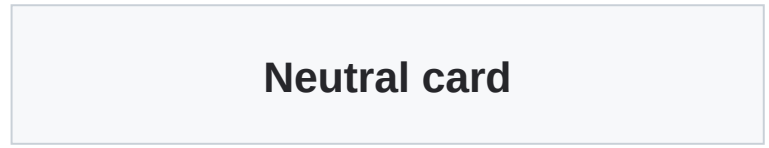

Orange number on white

DO

White text on Brown or Orange

DO

Neutral card, one accent

DON'T

Orange on peach — too low contrast

DON'T

Grey text on Orange

DON'T

Every card in Orange — nothing stands out

Eight reusable blocks beyond the basic boxes — copy them from here

SECTION INTRO

SUPPLY CHAIN

From demand to delivery.

Kicker + headline open a section or a dense slide. One orange word only.

STAT ROW

67	41%	64%
units / yr	of units	of value

Three to four numbers, label under each, hairline dividers. Numbers come from the source line.

WHY COLUMNS

Plan	Execute	Monitor
Short line of proof	Short line of proof	Short line of proof

Title above, dot on one thin line, text below. Use for 3 pillars or a simple process.

NUMBERED LIST

A1 Market size
Units and value by class

A2 Price check
Head to head by tm class

A3 Advantage
Five cranes that win

Agenda, appendix list, step list. Code in Orange, title Ink, detail Muted.

STATUS CHIPS

Done | On going | Not started | At risk

Pill chips for status in tables and timelines. Same four words and colours everywhere in the deck.

CALL-TO-ACTION TAGS

SEE APPENDIX | DECISION

Outline tag points to more detail; filled tag marks the one thing you ask the reviewer to decide. Max one filled tag per slide.

ICON LIST

- Weekly market update
- Price simulation tool
- Site visit photos

Replaces plain bullets when each line is a deliverable or a resource.

LOGO STRIP

LOGO LOGO LOGO
LOGO LOGO LOGO

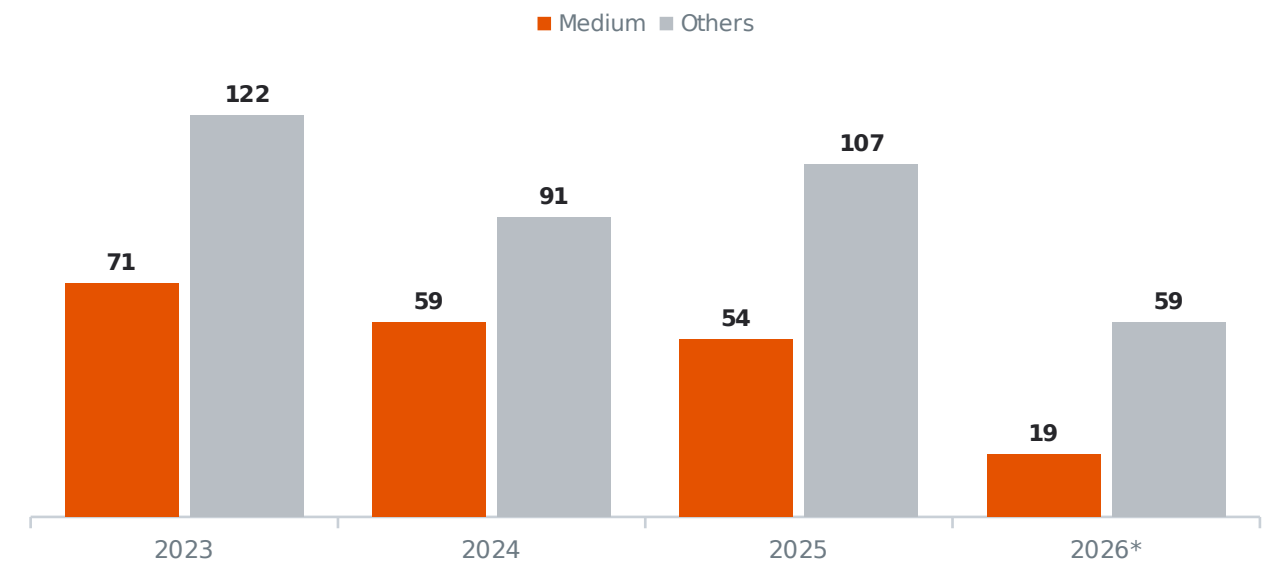

Partners, brands or competitors. Same box size, logos in original colours, aligned on one baseline.

Highlight one series, label directly, cite the source

1 · CHART — NATIVE, EDITABLE

Units per year. *2026 = Jan–14 Aug.

2 · TABLE

Class	Units	Import value	Share
Light	177	Rp 40.118 jt	12%
Small	200	Rp 77.241 jt	24%
Medium	**196**	**Rp 118.328 jt**	**36%**
Total	**638**	**Rp 326.841 jt**	**100%**

1 Title = insight

The subtitle says what the chart shows. Units and period go in a small note under the chart.

2 One highlight

Focus series in Orange, every other series Grey. Never a rainbow of categories.

3 Label directly

Data labels on bars, no gridlines, hide the value axis when labels are shown.

4 Start at zero

Bar axes always start at 0. No 3D, no shadows, no pie with more than 4 slices.

5 Tables

Ink rule under header and before total, hairlines between rows, numbers right-aligned, totals bold.

6 Native only

Insert charts and tables from PowerPoint/Excel, never as screenshots, so they stay editable.

Source: chart values are the example Medium-class units (2023–2026) from the F.lli Ferrari market study

DESIGN GUIDANCE — TIMEFRAME TEMPLATE

Plans and milestones in one native table — copy, then rename periods, rows and bars

7	*[NPI]*	*[PIC]*								NPI	*[Not started]*
[COMMERCIAL / SUSTAIN]											
8	*[Already commercial product]*	*[PIC]*	Commercial								*[Running]*

LEGEND

- NPD
- Trial program
- NPI
- Launch / milestone ◆
- Commercial
- Header = current period

HOW TO EDIT

- Extend a bar: select the period cells → Table Design › Shading → pick the phase colour
- Add a row or period: right-click → Insert rows / columns; rename Q1… to months or weeks if needed
- Move "today": shade the current period header orange, the rest wash

DESIGN GUIDANCE — IMAGERY & EVIDENCE

Photos prove the work: crop with purpose, caption, cite

1 · PRODUCT CUTOUT

Background removed, placed on Wash, same baseline and height for all units in a row.

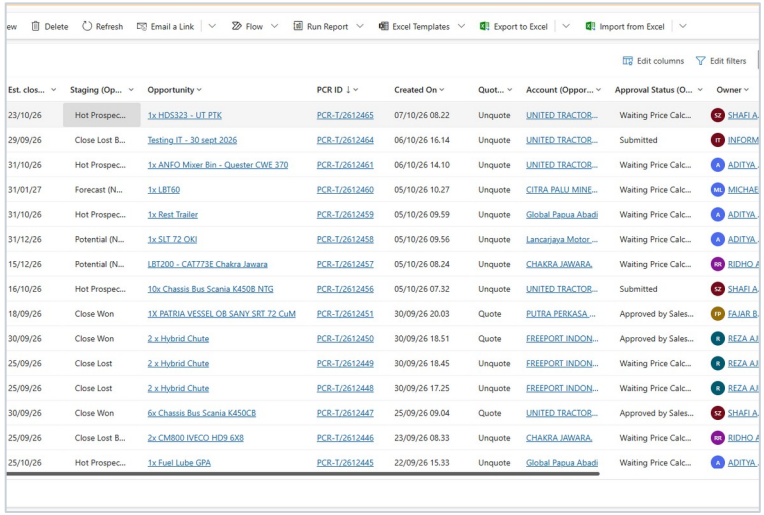

2 · FIELD PHOTO

Monitoring · plant visit · 2026

Crop to the action (people, unit, plant). Caption bar: what, where, when.

3 · EVIDENCE SCREENSHOT

4 · AVOID

Stretched images

Lock the aspect ratio; crop instead of squeezing.

Low resolution

Use originals. Below ~150 dpi at the printed size looks blurry.

Mixed styles

One corner style per slide: all square or all rounded.

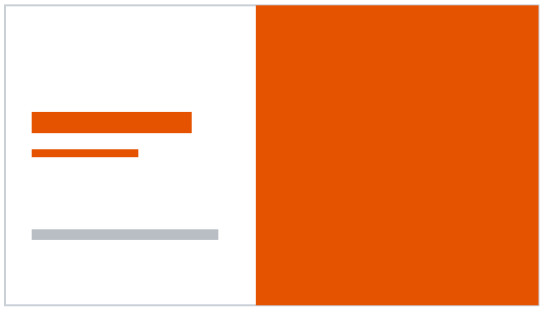

Decoration only

Every photo must show the unit, the place or the result.

DESIGN GUIDANCE — STORYLINE

Recommended flow for the 6-month review: who I am, where I work, what I did, what is next

00 Personal	01 Company	02 Site	03 Organization	04 Roles	05 Execution	06 Project	07 Next 6 months
About me, onboarding	Group, business lines, industries	Operations map	Structure, my position	Products, strategic vs supply chain	Strategic + supply chain with evidence	Problem, analysis, result	Learnings, plan, support needed
2 slides	**2** slides	**1** slides	**1** slides	**2** slides	**3–4** slides	**6–8** slides	**2** slides

WHAT EACH PART MUST ANSWER

1 Personal & Company

Do I understand the company I joined and where my products fit?

2 Roles & Execution

What did I do every month, and what is the evidence?

3 Project

What problem did I solve, with which data, and what changed?

4 Next 6 months

What will I deliver next, and what support do I need?

KEY TAKEAWAY

Spend most slides on Execution and Project: that is where reviewers judge the six months. Company and organization slides only set the context.

NOTE

Target 25–30 main slides for a 30-minute slot, about one minute per slide. Move detail to the appendix.

ASK

End with one clear request: the decision, approval or support you need from the reviewers.

Short sentences, real numbers, one format for every figure

1 · HEADLINES: TOPIC → MESSAGE

AVOID	USE
Market Overview →	Medium and Heavy cranes are 41% of units but 64% of import value
Price Comparison →	F.lli Ferrari is cheaper head to head in five tm classes
Monitoring →	Regular plant follow-up keeps each PO on its agreed RFD date
Work Challenges →	Last-minute quote requests are the main risk to lead time

2 · TEXT RULES

- Max 6 bullets per box, ideally one line each; no full stops on fragments.
- Max ~40 words per box. If more is needed, it belongs in the appendix.
- Define an abbreviation once: Request for Delivery (RFD).
- One language per deck (English); keep product and form names as in the system.
- Names: full name + role on first mention, short name after.

3 · NUMBER FORMATS

Currency, table	Rp 1.240.000.000
Currency, text	Rp 1,24 M · Rp 650 jt
Unit / capacity	25–35 tm · 30,4 tm
Count	31 units · 1 unit
Percent	41% · +23% · −14%
Date	14 Aug 2026
Period	Jan 2023 – Aug 2026
Quarter / month	Q3 2026 · Oct 2026
Estimate	7441C* — *estimate, note it

NOTE

Use the en dash (–) for ranges and the minus sign (−) for drops. Round only in text; tables keep the full figure so totals add up.

DESIGN GUIDANCE — PRE-SEND CHECKLIST

Fifteen checks before the deck goes to the reviewers

1 · STORY

- [ ] Subtitles alone tell the 6-month story
- [ ] One message per slide
- [ ] Agenda matches the section dividers
- [ ] Last slide states the ask / next step
- [ ] Appendix holds the detail, not the main deck

2 · DESIGN

- [ ] Every content slide uses '8_Custom Layout'
- [ ] Arial only; sizes from the type scale
- [ ] Colours only from the palette
- [ ] Body stays inside x 45–915, y 75–505 pt
- [ ] Photos sharp, cropped, not stretched

3 · DATA

- [ ] Every chart and table has a source line
- [ ] Numbers match between slides and appendix
- [ ] Formats follow the number rules
- [ ] Charts and tables are native, not pictures
- [ ] Spelling and names checked

4 · FILE NAMING & VERSIONS

NEDP_6M_Review_TiberiasSimu_v03_2026-10-13.pptx

Program + topic	Owner	Version	Date
Same prefix for every file of the review	Who presents the deck	v01, v02 … raise it on every sent copy	ISO date, so files sort by time

KEY TAKEAWAY **Send a PDF to read and the PPTX to edit; keep the PPTX file version on the cover up to date.**
