

Five Sections Prove I Know the Company, My Products and How I Execute

AGENDA

01 Company Profile

02 Site Operation

03 Organization Chart

04 Roles & Responsibility

05 Job Description Execution

PRESENTER

Tiberias K. Simu

Marketing Strategic 2 Associate

PRODUCTS I OWN

**Small Suppeq
Truck Others**

PT Triatra Sinergia Pratama
Marketing Unit & Strategic Division

SECTION 01

Company Profile

01

Triatra Is Astra's Mining Support Arm — From Unit Selling to After Sales

COMPANY PROFILE

OWNERSHIP CHAIN

Astra International

Diversified conglomerate

United Tractors

Heavy equipment, mining & energy

UTPE

United Tractors Pandu Engineering — manufacturing

PT Triatra Sinergia Pratama

Marketing & sales of Patria products and after-sales services

BUSINESS LINES

PATRIA

Unit selling — vessels, trailers, supporting equipment and special-purpose trucks

ULTRA

After sales — parts, service and product support for the installed fleet

INDUSTRIES SERVED

01

Coal & Mineral Mining

02

Construction

03

Agro & Forestry

04

Marine

[add site list]

SECTION 03

Organization Chart

03

Each Associate Owns a Distinct Product Group — Mine Is Small Suppeq and Truck Others

ORGANIZATION CHART

SECTION 04

Roles & Responsibility

A — Position & Products

B — Strategic vs Supply Chain

04

I Report Through the Deputy Head and Own Two Product Groups End to End

ROLES & RESPONSIBILITY · POSITION & PRODUCTS

REPORTING LINE

MY PRODUCTS

Small Suppeq

Water Truck (WT20, WT35), Lube Truck (LT08), Fuel Truck (FT20) and similar supporting units

Truck Others

Mining Crane, Fire Truck, Mixer Truck, Tyre Truck, Steaming Truck and other special-purpose trucks

Product photos

My Work Has Two Sides: Strategic Sets the Direction, Supply Chain Delivers the Order

ROLES & RESPONSIBILITY · STRATEGIC VS SUPPLY CHAIN

A. STRATEGIC Decides direction — output feeds management decisions

- Pricing & Market Analysis
- Market Study & Program Development
- Market Program for Support Sales
- Performance Reporting (GP, PICA)
- Innovation & Development

B. SUPPLY CHAIN Runs the transaction — output keeps operations moving

- Quotation & Production Coordination
- Operational Reporting
- Internal & External Coordination
- Routine Meetings & Communication

SIPOC

	SUPPLIER	INPUT	PROCESS	OUTPUT	CUSTOMER
Supply Chain	BC / Sales, UTE (Patria), non-Patria vendors, forwarders	PCR demand, preliminary drawing, PO / PJB, QFD	Quote request → close won → PO Interco → production monitoring → billing	Quotation, PO Interco, BAST / BAPB, invoice	Sales team, end customer, Finance
Strategic	CRM, sales & GP data, market sources, UTPE	Market data, competitor specs, price history, GP results	Market study, price analysis, sales programs, GP & PICA reporting	Market study, CRM price list, sales tools, GP / PICA report	Management / BOD, Sales team

Dimensions

- Financial: non-Patria procurement budget, COGS per unit, target margin per PO
- Non-financial: vendors & customers handled, documents verified, report frequency, meetings & site visits

Working Relationships

- Internal: Sales & Marketing, Warehouse, Finance & Accounting, Legal, Procurement
- External: customers, Patria & non-Patria vendors, forwarders, UTPE

Work Challenges

- Keep pricing, procurement and report data accurate
- Align many functions on tight, shifting deadlines
- Adapt to changing market and stakeholder needs

SECTION 05

Job Description Execution

Strategic

Supply Chain

05

Strategy Starts With Data: I Frame the Question Before I Read the Market

JOB DESCRIPTION EXECUTION · STRATEGIC (1/2)

Steps 1-4

1 Define Market & Objectives

- Set the business question for Small Suppeq / Truck Others
- Agree scope and target segment with Dept Head

Evidence

2 Design Market Study Plan

- Choose data sources and method
- Set timeline and owners

Evidence

3 Collect Internal & External Data

- CRM, PCR, GP history, sales feedback
- Competitor specs and price points

Evidence

4 Analyse Market & Competitors

- Market size / share, segmentation, positioning
- Map competitor products against ours

Evidence

Analysis Only Counts When It Turns Into Tools, Reports and Decisions

JOB DESCRIPTION EXECUTION · STRATEGIC (2/2)

Steps 5-8

5 Build Sales Tools & Programs

- Pamphlets, incentive programs, campaigns
- Standard price list in CRM, event support

Evidence

6 Prepare Performance Reports

- GP Report and Performance Report
- PICA analysis on gaps

Evidence

7 Interpret Results & Recommend

- Turn findings into pricing / program advice
- Present to management

Evidence

8 Innovation & Development

- Project Charter for innovation projects
- Training (Patria Mover), site visit reports

Evidence

DELIVERABLES

Market study, sales tools, CRM price list, GP & PICA reports

DEPARTMENTS INVOLVED

Sales, Finance & Accounting, UTPE, Marketing Communication

CHALLENGES

Scattered data sources; limited competitor price visibility

IMPROVEMENTS

Single dashboard for GP and pipeline; regular competitor mapping

Before Any Price Goes Out, I Clarify the Demand and Read the Drawing

JOB DESCRIPTION EXECUTION · SUPPLY CHAIN (1/2)

Main Process · Steps 1-3

1 Demand Check

- See demand rise in PCR
- Clarify with BC: reason to buy (expansion / new business / replacement)
- Project location; fast or low-cost priority
- Expected price and estimated PO date

Evidence

2 Preliminary Drawing Review

- Check unit function and how it works
- Flag critical main components on price and lead time
- Consult Application Engineering

Evidence

3 Request Quote to UTE

- Attach prelim, expected price & lead time, end customer, expected delivery
- Check standard GP (13.6% — pre-negotiation price)
- Track SLA, escalate if late; log result in PCR

Evidence

Winning the Order Is Half the Job — Monitoring Keeps Delivery on Schedule

JOB DESCRIPTION EXECUTION · SUPPLY CHAIN (2/2)

Main Process · Steps 4-5

4

Close Won → CPO

- Check PO / prelim / PJB in CRM; request QFD from UTE; collect special requests & painting style from BC
- RFD from QFD becomes PO Interco due date
- Close won: Sales Mgr → Mkt Associate → Mkt Mgr → GM Mkt · PO Interco approval: Mkt Mgr → GM Mkt → Mkt Director

5

Monitoring

- Track production and update sales (factory visit or photos from Nandu); match QFD vs actual
- Escalate when RFD is at risk; request painting style ≥1 month before RFD
- Accompany BC at customer FAT

INTERNAL MONITORING

Pipeline-OSPO Dashboard, updated monthly	CRM Staging Pipeline No prelim = early talks; prelim = validate & quote	Quote Price to UTE Detail, average SLA, initial price	Progress Billing Check staging, escalate
--	---	---	--

BILLING PROCESS CHAIN
